2021+ — Chevy Tahoe, Suburban/GMC Yukon, Yukon XL Instruction Sheet (1120)

Installation Steps:

1) If applicable, reset the combination lock before beginning installation.

2) Remove all contents from the center console and open the door on the Console Vault safe.

3) Using a 10mm socket wrench, unfasten the two (2) OEM screws from the bottom of the inside of the console. Set aside for later. **(1)**

4) Remove the pad from inside the safe. Set aside for later.

5) Using two hands, gently slide the safe into the console. **(2)**

6) Insert the two (2) OEM screws through the mounting holes in the bottom of the safe. Hand start the screws, then use a 10mm socket wrench to fully tighten. **(3)**

7) Place the pad inside the safe. **(4)**

8) The installation is now complete!
